

## **05/15/09 - MySpace Profiles with a Difference**

Most web designers will break into a sweat simply at the thought of designing or coding MySpace layouts, but due to my experience with social networking sites, I relish creating attractive customised MySpace pages. Coding for MySpace profiles is not simple, but I have developed several techniques to tweak MySpace code enabling me to make unique, eyecatching designs.

Depending on your requirements I can provide basic or advanced MySpace layouts for businesses, artists, bands/muscians and individuals.
